Meet Your **VoIP AI** Project Manager

The active alternative to passive tools like Jira and Trello

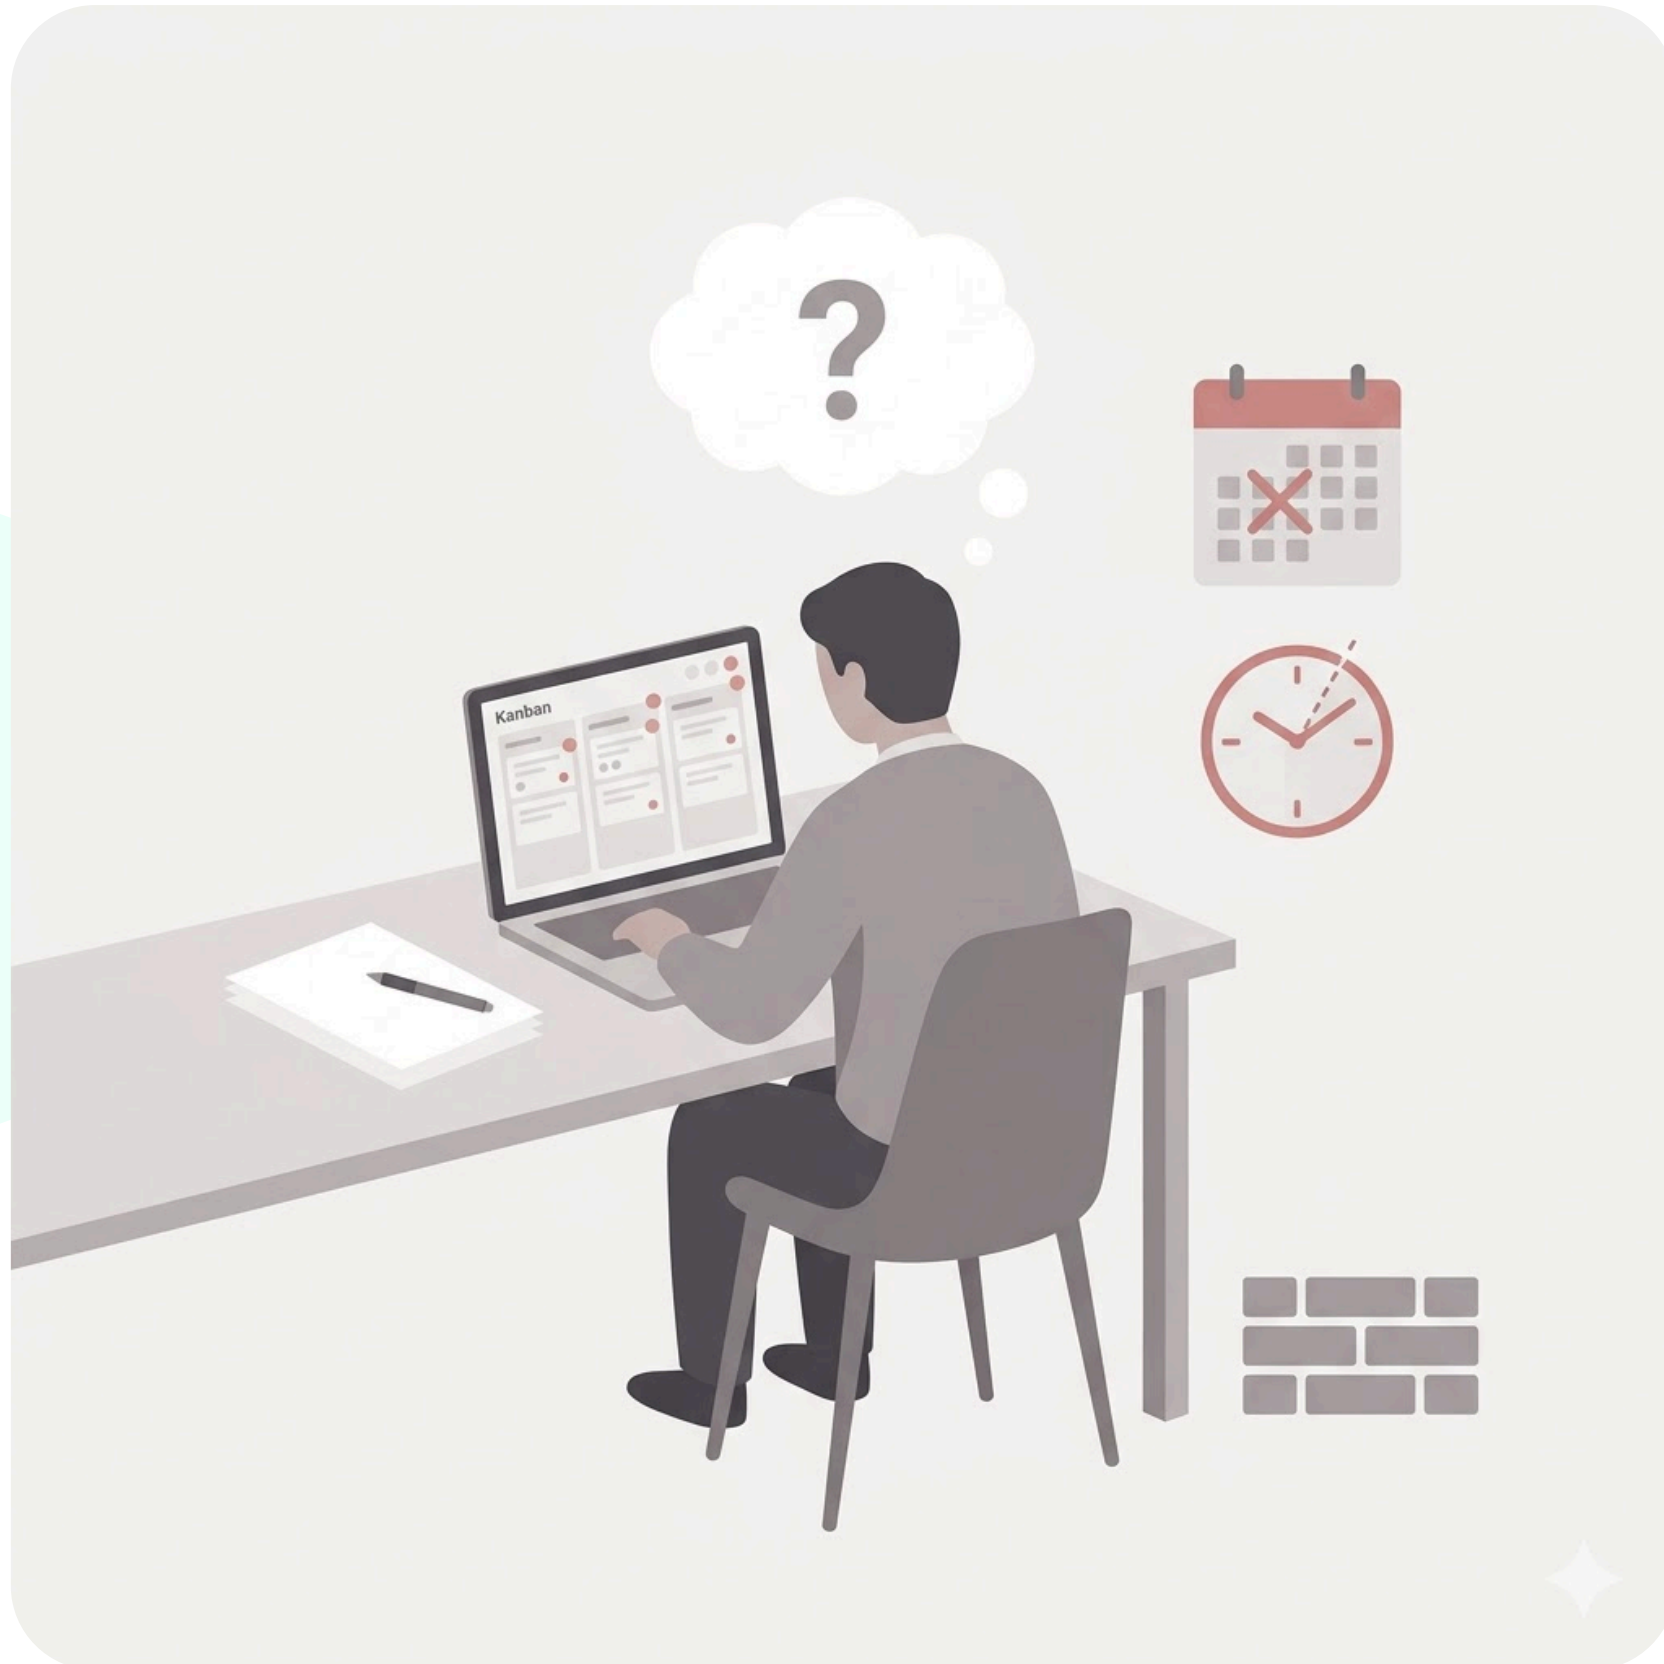

- Calls your team like a real manager
- No dashboards, no logins required
- Works for one person or a whole org

GoalChaser.co

— AI VoIP Task Planner —

Your Tools Wait. Your **Deadlines** Don't

Passive tools only work if someone remembers to use them

- Updates depend on memory
- **Deadlines** slip silently
- Reports **written** by hand
- **Blockers** go unnoticed

Introducing GoalChaser.co

GoalChaser calls, listens, and keeps every team moving

- **Calls** instead of waiting
- Understands **natural** conversation
- Updates **tasks** automatically
- Built to run entire **teams**

From Call to **Completed** Task

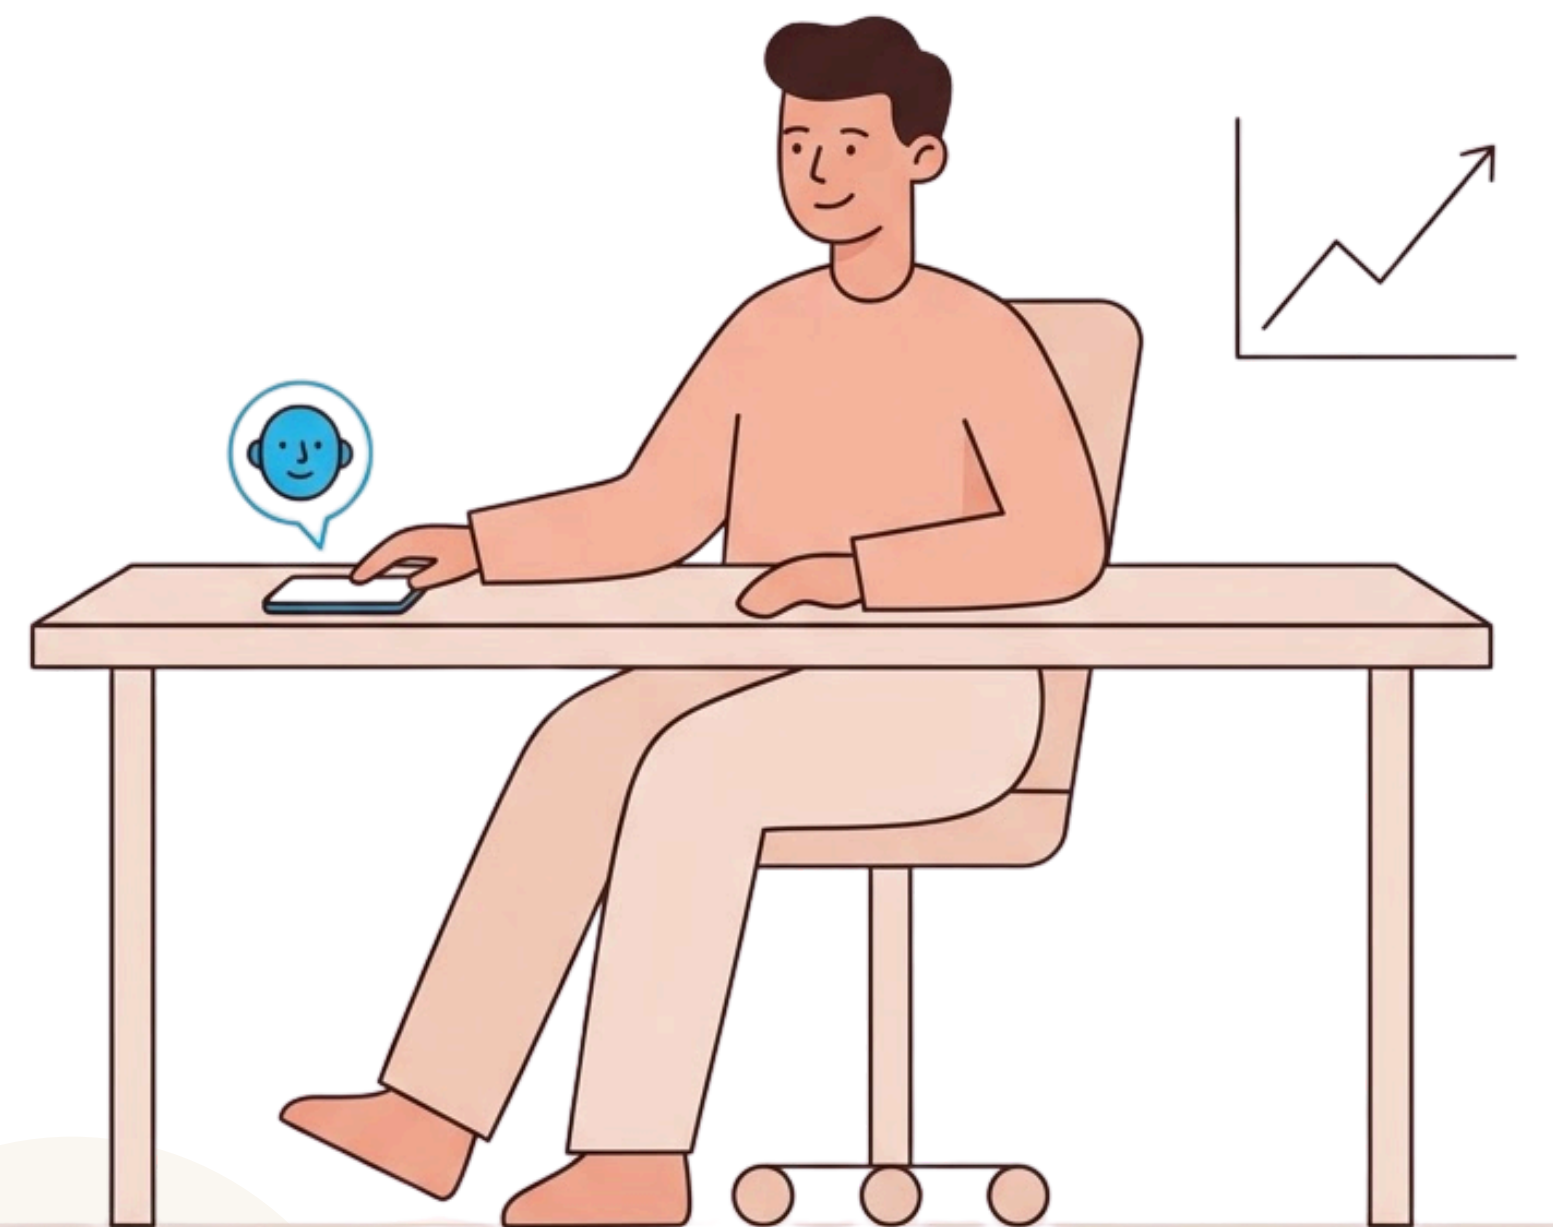

A simple four step loop, every single day

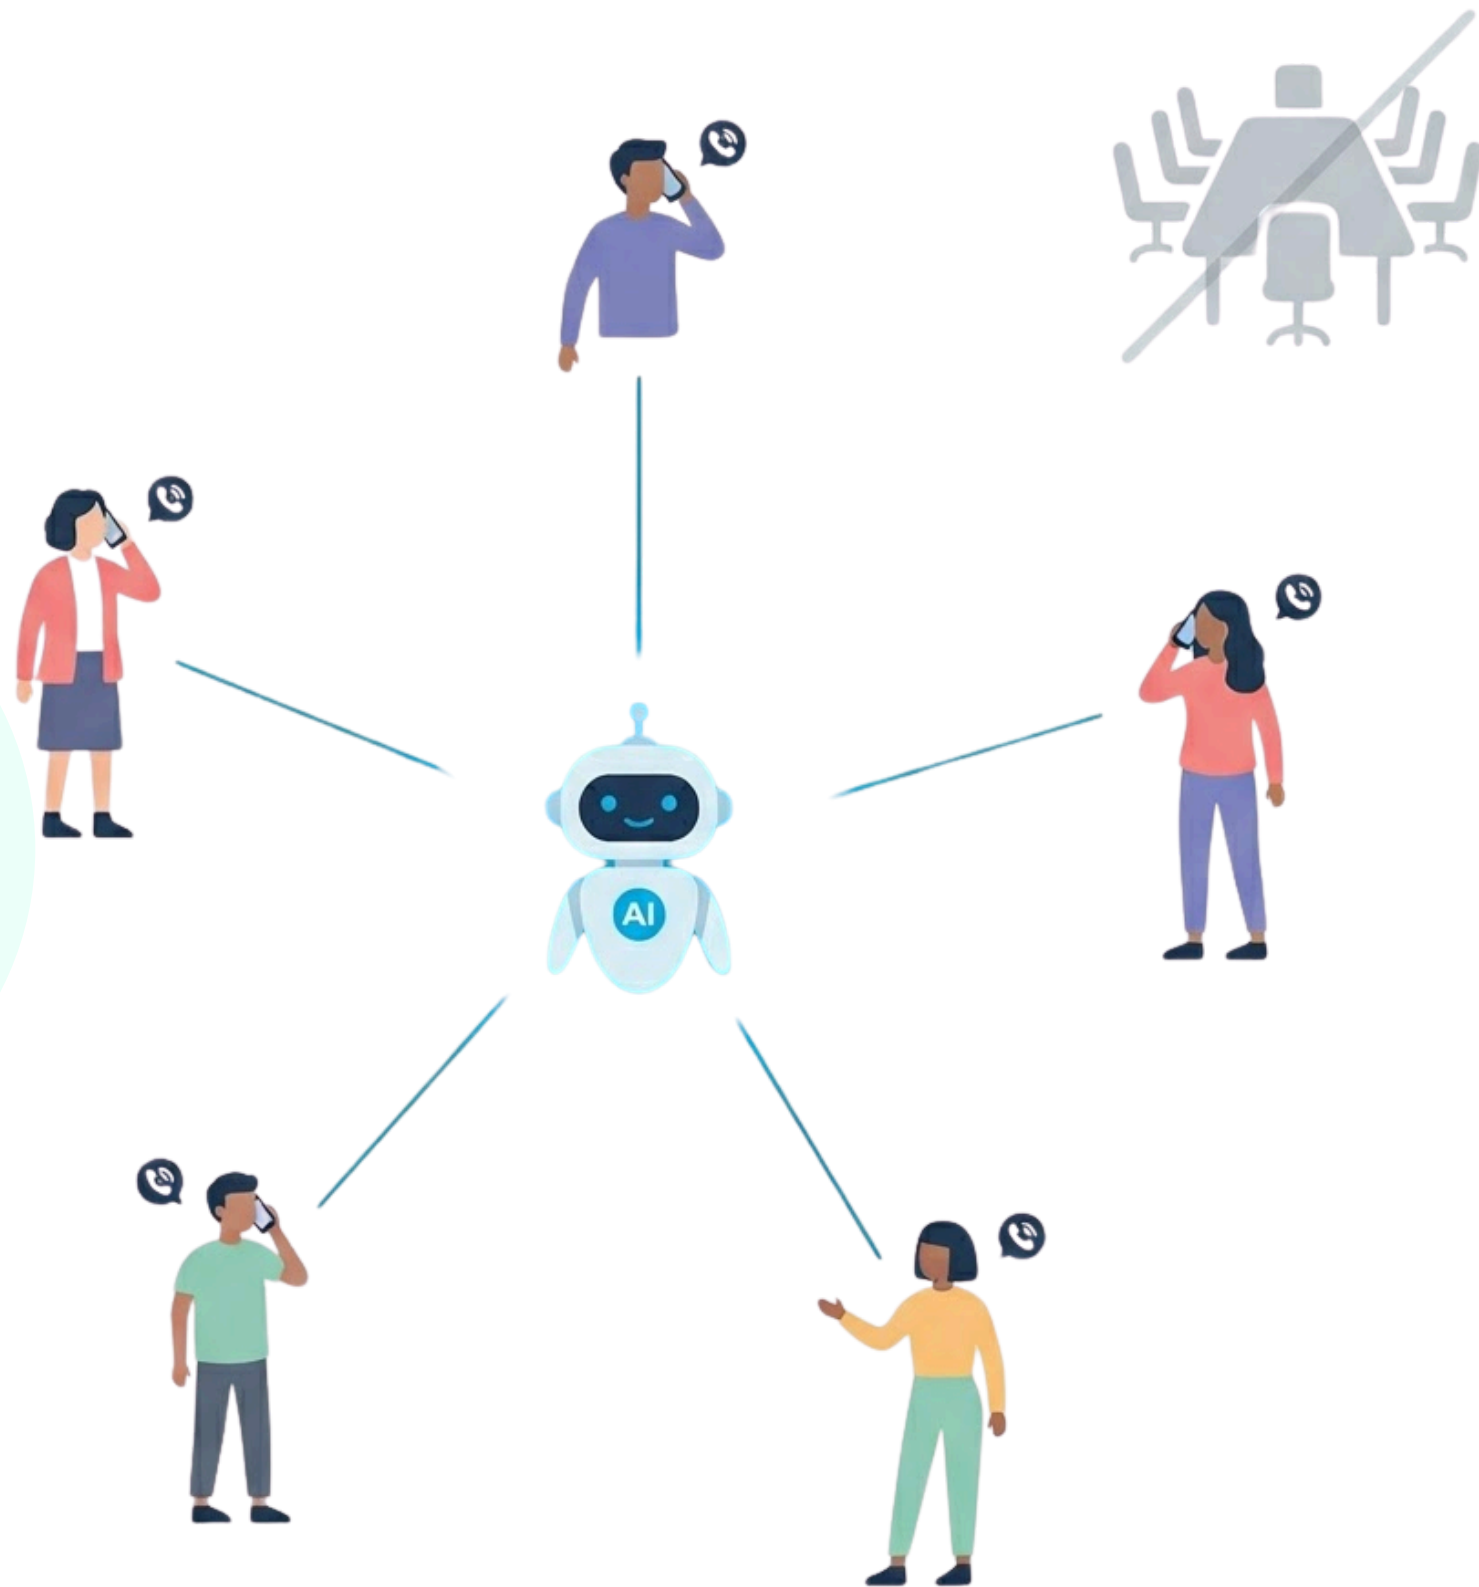

- **Quick** morning call
- AI **plans** the day
- **Friendly** reminders
- Clear daily **report**

Your Personal **Accountability** Partner

Helps every person stay on track, every day

- Morning planning call
- Reminders before **deadlines**
- **Help** when stuck
- **Personal** progress tracking

Standups Without the Meeting

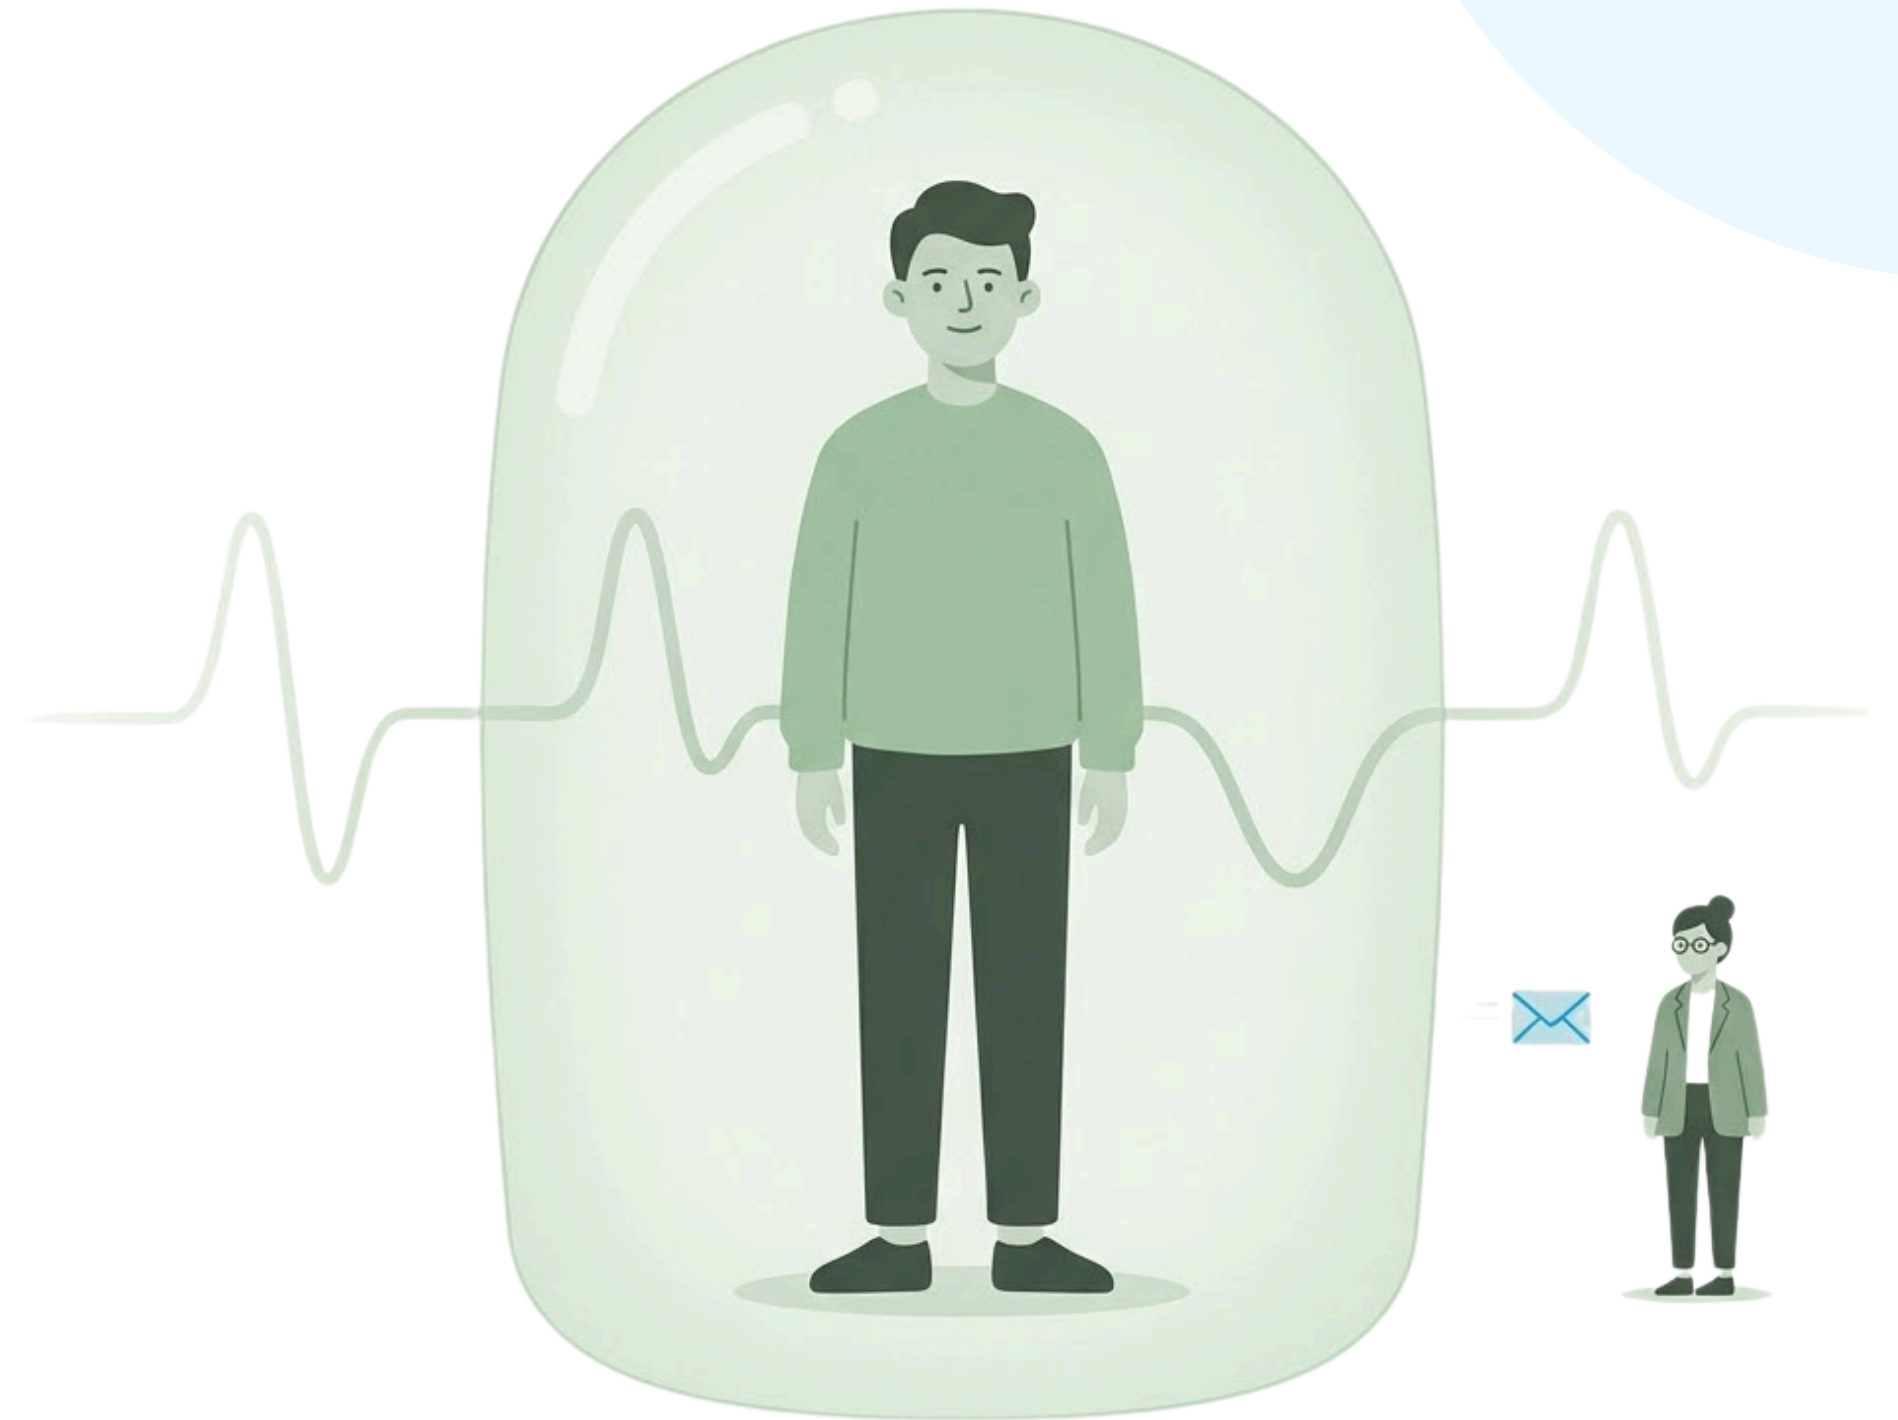

AI calls each team member individually, every morning

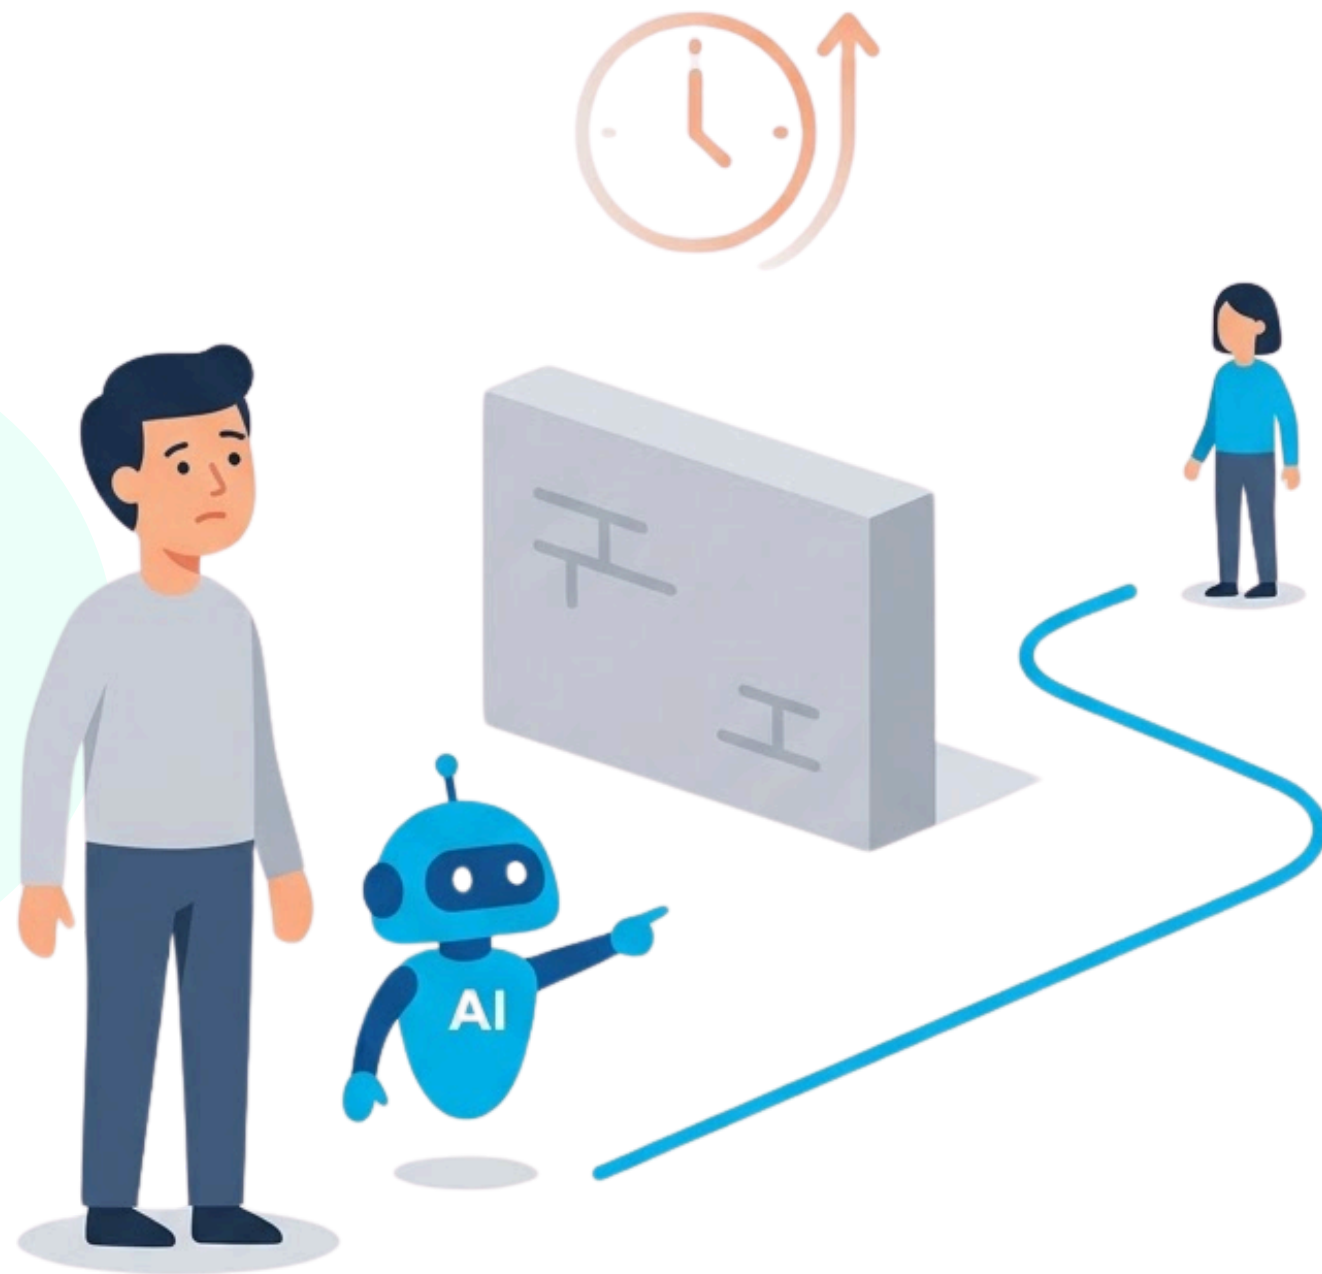

- One on one calls, not group meetings
- No time **pulled** from anyone's day
- Updates sync **automatically**
- Works for **any** team size

Fair **Accountability**, Not Surveillance

Every person is measured against their own baseline

- **Learns** personal pace first
- Private **self correction** window
- **Flags** go to managers only
- One **bad** day changes nothing

Stuck Work Doesn't Sit Quietly Anymore

Blockers get surfaced and resolved in real time

- AI offers solutions on the call
- Connects you to the right **teammate**
- **Escalates** if nothing moves
- No **blocker** sits unnoticed

Sprint Retros That Write Themselves

Generated automatically from calls and task data

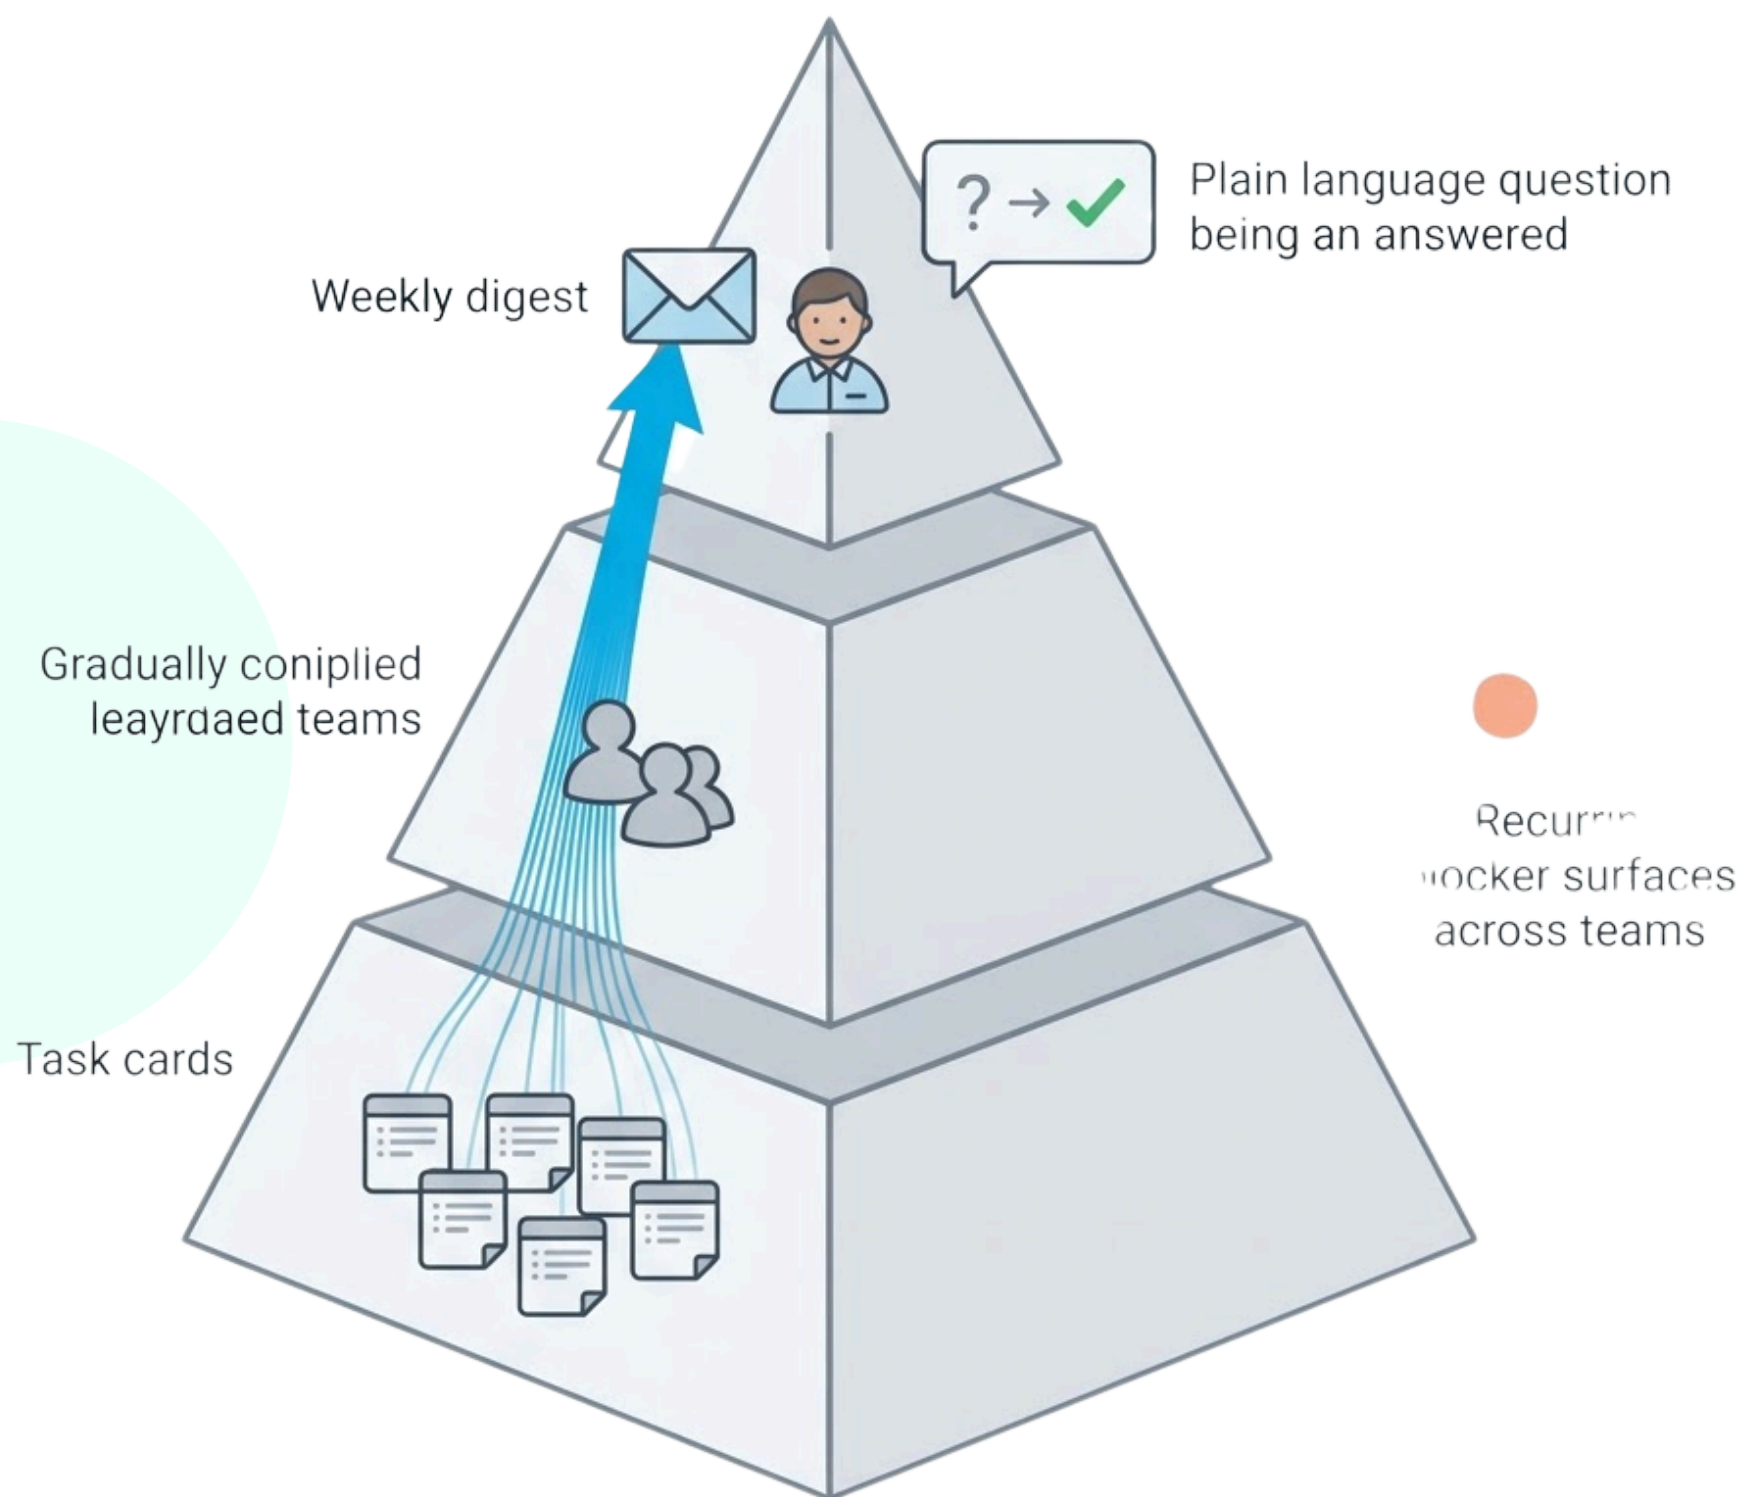

- No **retro** meeting required
- Delivery rate and **blockers** summarized
- **Estimate** accuracy tracked over time
- Each sprint makes the **next** one smarter

GoalChaser.co

Leadership **Sees** What They Need, Automatically

From task level detail to org wide health, without chasing anyone

- **Weekly** plain English digest
- Ask **questions** in plain language
- **Org** wide blockers surfaced
- Always on **live** dashboard

Plays **Well** With What You Already Use

No need to rip and replace anything

- **Connects** with Jira, Trello, Asana
- Syncs with **Slack** and **GitHub**
- **Import** existing projects instantly
- Adds a **voice layer**, not a new system
